**IMPORTANT - Please Note - Custom Cables and Plates:-**

- To calculate the cost of a cable, simply multiply the price per Metre by the length in Metres and then add a single amount for termination.
- Provide a drawing showing connectors, sexes, cable types & lengths & plate layout. Indicate whether the plate is to be supplied separate or fixed to cables.
- Please provide manufacturers' pinouts or sample cable/s for OEM wiring configurations, e.g. LCD projector mouse & remote control cables
- If correct connection information is not provided with order, we charge \$88.00 per hour to trace wiring and/or obtain wiring information from suppliers. **per Hour \$88.00**
- Custom cables and plates cannot be returned under any circumstances. No responsibility accepted for verbal orders or those without a drawing.
- Packing, handling and freight are not included. Packing & handling charge applies if your courier is picking up your parcel... **P&H \$7.70**
- Please allow at least one business day for manufacture of one or two sets. Larger quantities take longer.
